

ILLUSTRATOR & PHOTOSHOP TEST

SPRING 2012

Please read through all the instructions.

You have half an hour.

On the following page there are two images. Create two documents, one in Illustrator, one in Photoshop. They should both be 5" x 5".

Spend 15 minutes on each image, and recreate them as far as you can, using Illustrator and Photoshop.

Save your images in a folder with your name on it. Label them Letters/your name and Pattern/your name, and give them to your instructor.

This test does not affect your grade, it is a departmental test designed to improve the Raster/Vector courses.

LETTERS

Use Illustrator but don't use a font. Draw the letters.

PATTERN

Use Photoshop to create the pattern from scratch.
